

I. 前期技术积累

Early Technical Foundations

Wireless Task Modeling

Transformer / SSL

Masked Modeling

II. 基础模型概念形成

Foundation Models

LWM · WiFo

Large-Scale Pretraining

Multi-Task Transfer

III. 快速扩展与专门化

Expansion & Specialization

Heterogeneity & Scaling

Heterogeneous CSI

Generalization

Efficiency

Lightweight Models

Inference Cost

Physics / Structure

Physical Coords

Geometry

Focus
Explicit 2D UPA
